**INTRODUCING TO THE EVENT PRESENTING IN
TECHNOBASH 2024-25 FREE FIRE MAX TOURNAMENT**

**Organized By:- AIML Department, G S Moze College Of
Engineering, Balewadi, Pune**

Introduction

What is Free Fire Max?

Free Fire MAX is an enhanced version of Garena's popular battle royale game, Free Fire. It offers improved graphics, higher resolution textures, and better visual effects compared to the original Free Fire game. Free Fire MAX provides players with a more immersive experience and allows them to enjoy the game's action-packed battles in higher fidelity.

How is it played?

Free Fire MAX is played similarly to the original Free Fire game. It is a battle royale game where players are dropped onto a remote island along with other players, and the objective is to be the last person or team standing. Here's a basic overview of how it's played:

1. **Dropping In:** Players start by parachuting onto the island from an airplane. They choose their landing spot strategically to find weapons, supplies, and equipment.
2. **Gathering Resources:** Once landed, players scavenge for weapons, ammunition, healing items, and other gear to increase their chances of survival.
3. **Survival and Combat:** Players must survive against other players while staying within a shrinking safe zone. They engage in combat encounters, utilizing their weapons and tactics to eliminate opponents and stay alive.
4. **Strategy and Movement:** Players need to strategize their movements, taking cover, and positioning themselves advantageously to outsmart opponents and avoid getting eliminated.
5. **Objective:** The ultimate goal is to be the last player or team standing by eliminating all other opponents. As the match progresses, the safe zone shrinks, forcing players into closer proximity and more intense battles.

Technobash: FREE FIRE MAX Tournament

Date & Time:- 4th February 2025 at 11:00 AM

Platform:- Mobile Only

Game Mode:- Squad (4 members)

Gameplay:- Elimination

Registration:-

- **Participation:-** Open To All College Students
